Description
Technomelt

Type of Adhesive: Hot Melt Adhesive

Field of Application: Bookbinding

Typical Technical Data:

Viscosity:	2100 cps. at 350°F	Brookfield RVT
Color:	Yellow	
Ring & Ball Softening Point:	190°F	
Open Time:	Long	
Set Time:	Medium	
Application Temperature:	325°F to 375°F	

Properties:

80-8610 is a medium viscosity, high quality hot melt adhesive, developed as a side-seam adhesive in bookbinding applications. The adhesive was designed to be machine cleanly, non-stringing with excellent stability. The long open time and excellent adhesion provides versatility for a wide range of paper stocks and operating speeds.

Handling and Application:

To avoid accidental contamination, keep container covered as soon as sufficient hot melt has been removed for use.

Precautions:

No health hazards are expected with this product in its solid form. Once melted, it is like any hot liquid in that it can produce severe burns. Care should be taken to avoid getting the hot liquid adhesive on the skin. If this occurs, flush the affected area with large amounts of cold water. Do not try to remove the solidified hot melt. Seek Medical Attention immediately. Please refer to the Material Safety Data Sheet for further information.

Storage Conditions:

Do not store in high temperatures.
